

Managing contracts
Case Study Contract management for Smart Steady IT

Outline various support levels, services per price plan to improve the bottom line

“Helped us to get organised, no undercharging” Director

Challenge

Smart and Steady IT required support issues clarified and delayed payment covered in a contract. They also need a service level agreement to give them flexibility, with correct pricing to avoid undercharging. Our contract management services provided support to progress these.

Contract management services

The services to Smart and Steady IT included :

- Coverage of support issues in contract;
- Extra services not being charged recovery;
- One off services and monthly fees;
- Delayed payments;
- Service types and support for each service.
